“The programme on Advanced Microfinance & Financial Inclusion organised by the Financial Inclusion Advocacy Centre exceeded my expectations. There were excellent trainers who made the learning very friendly and gave real examples to back up their excellent theories. The training programme was very interesting and interactive. As a regulator, I have learnt skills to use in both work and personal life. I would just “thank you and keep the good work”

“It was a great learning program. I learnt a lot through this program on how to serve the missing parts of the M-SMEs in terms of financial inclusion and well-being. Mr. Crentsil and Mr Akbarali took great efforts to teach us with fantastic case studies and we really enjoy our stay in London.”

“The course on Advanced Microfinance & Financial Inclusion has been a real eye opener for me given that I come from a commercial banking background. The issues at hand are a reality and as such have to be addressed with all stakeholders on board- the regulators, the financial service providers, fintech companies that provide the technology and the development agencies etc This course has thrown the much needed insights and will enable me to conceptualise products that speak to the needs of the poor”
